

Determination

As required by section 126(b) of the Internal Revenue Code of 1954, as amended, I have examined the authorizing legislation, regulations, and operating procedures regarding the Mill and Deer Creeks Water Exchange Projects. In accordance with the criteria set out in 7 CFR Part 14, I have determined that all program payments for implementation of these projects made under the Delta Pumps Fish Protection Agreement are primarily for the purposes of protecting or restoring the environment and providing a habitat for wildlife. Subject to further determination by the Secretary of the Treasury, this determination permits program payment recipients to exclude from gross income, for Federal income tax purposes, all part of such program payments made under said project.

Signed at Washington, D.C. on February 5, 1999.

Dan Glickman,

Secretary, United States Department of Agriculture.

Selected Topics To Discuss at March 8-9 Meeting

1. Nominations Procedures—methods to ensure that nominations are solicited from the broadest groups for board representation; reaching out to a diverse group of members, such as limited resource/small/minority producers, handlers, importers, public consumer representatives, minorities, etc.

2. Continuance Referendum Procedures—most programs require that calls for referenda must occur with some specified percentage of signatures. In some cases volume thresholds are also used. Are the procedures/thresholds adequate to ensure that programs have majority support? Some programs call for automatic referenda on a periodic basis (e.g., every two years)—should there be consistent procedures across all programs? What is the best way to ensure that there is continued support for programs?

3. Financial Management Issues: two areas of discussion here might be in: 1) the areas of financial controls, reviews, and audit procedures by Boards—are there consistent procedures used across the boards; relatedly, are there sufficient enforcement authorities to boards to ensure proper financial controls, or to ensure prompt payment of assessments; 2) the role of USDA in overseeing financial management by boards, and audits by USDA—can USDA be of better, more effective assistance in this

area, to minimize problems with boards' financial management? How?

4. Other Items * * * e.g., evaluation of effectiveness—how do boards ensure that their paying members (as well as the public, in some cases) are knowledgeable about the use of funds, and the effectiveness of promotion and research activities carried out by boards? Can USDA be of more assistance here? E.g., do boards engage in publishing their accomplishments, plans, or use such means as focus groups to solicit input and demonstrate planned activities and intended accomplishments?

Dated: February 19, 1999.

Kenneth C. Clayton,

Acting Administrator, Agricultural Marketing Service.
